

Additional administrative information:

Chapter Three is in press. Awaiting final proof from publisher for inclusion.

Chapter four and five are both in peer review at publication and will be included as they are accepted. If acceptance does not occur prior to the end of February, chapter will be included as pre-prints of in-review papers.

Current page numbers are place holders and will reflect accurate page numbers as the additional chapters are included.

Copyright release is needed for Chapter 2 and 3 currently (and chapter 4 and 5 if accepted prior to final submission). I have already researched Chapter 2 release and it will be easily obtained. Chapter 3 release, is waiting on final proofing in press.

Best Regards,

Erick
